

*Day Tour Package*

*An Amazing Boat  
Day Tour Experience!*

## EXCLUSIVITY AND QUALITY

We work with less quantity of tourists by group on our tours, to keep the quality of your experience: That's our speciality. We personalize your experience and will do all to make your dreams come true.

We are recommended on the best guide books of the world, such as: Lonely Planet, Guide Le Routard, Stefan Loose, Baedeker, Footprint, Michelin and Dumont.

## Your adventure starts here!

### Description:

7:30am pick-up from hotel heading to the private marina where we embark.

We'll start our tour with interaction with the pink dolphins which are docile and playful animals that after centuries as part of Amazonian legends, which aroused some fear and distance by some of our traditional communities, today gets to be hunted down by some unscrupulous fishermen who kill them for use as bait for catfish! and sometimes they get trapped in fishing nets. We'll know about this project supervised by government agencies authorizing the activity to be developed in a sustainable way under the rules laid down by Brazilian government to give us this unforgettable experience of swimming with these animals that live free in nature, also watching the dealer to feed them into the water.

## OUR BOATS

Boat Day Tour

# Amazon Eco Adventures

Now it's time to visit an indigenous village to learn about their culture and watch a presentation of their rituals, using musical instruments, traditional dances and songs of their culture, if you want you can buy souvenirs. This community originally coming from the farthest parts of the upper Rio Negro in Amazonas will explain us about their history and legends in a in an amazing encounter.

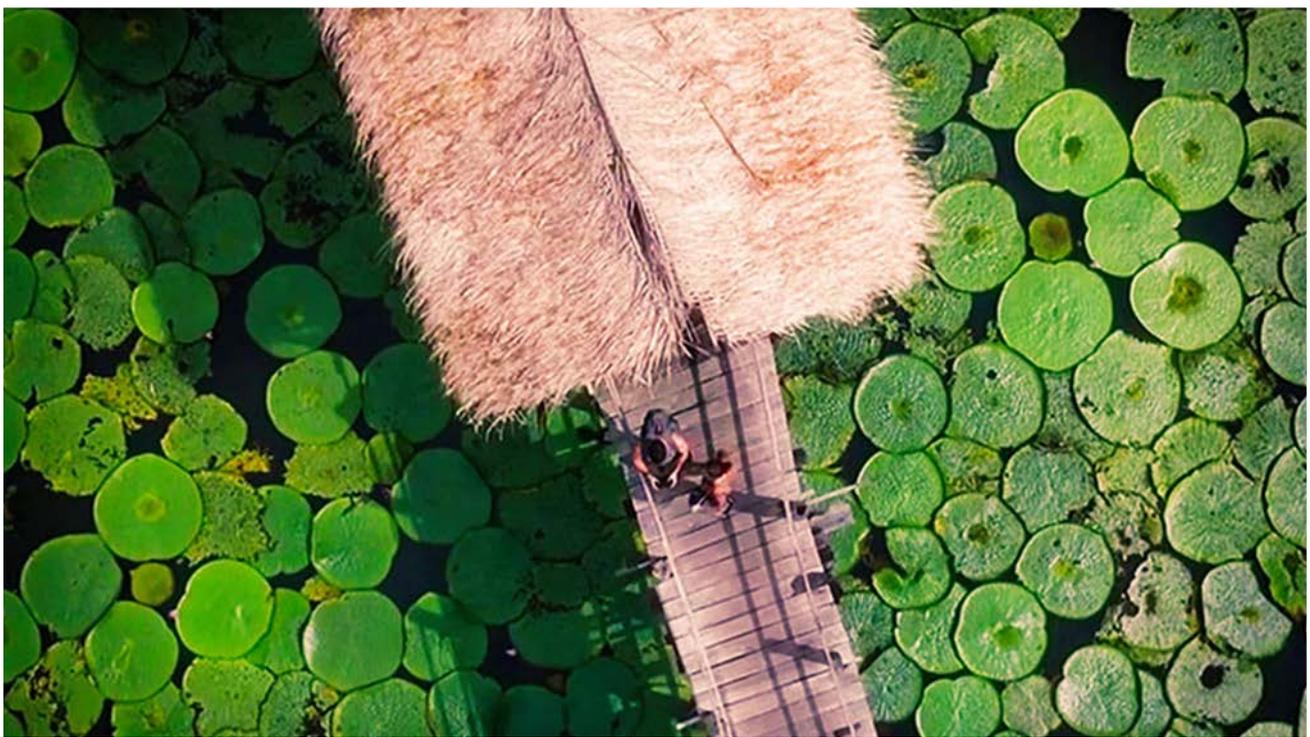

Boat Day Tour

# Amazon Eco Adventures

From there we head towards the last stop of the first part of the tour. We will have lunch at a floating restaurant, but before we will navigate through the Igapó (forest area that floods during part of the year), we'll walk along a wooden walkway suspended to get to the lake with the water lilies (giant aquatic plants) hopefully we will be able to spot animals free in nature such as sloths, birds and monkeys so abundant in this region, then returning for a delicious lunch with all inclusive bufei with drinks, fruit salads, fish, meat, chicken etc.

We will continue our adventure by navigating along the Amazon river and on the way we will pass by villages with different characteristics like houses built on stilts (built on wooden logs, high fixed to the ground).

Leaving the meeting of the waters sailing by the other bank of the Rio Negro we go to the lake “Catalan” to visit a village of the same name that has a curiosity on their constructions that are made of logs of wood. Floating houses, schools, churches.

# Amazon Eco Adventures

On this site we will make a stop at a floating farm that raises several species of fish, especially the Arapaima AKA Pirarucu (the largest fish with scales of freshwater in the world), You'll have an unique experience, the opportunity to play with the fish using a stick, a string and a small fish that serves as bait, but without hook so may feel all this emotion without hurting the fish.

Boat Day Tour

# Amazon Eco Adventures

The return goes through the whole border of Manaus (Rio Negro bridge, neighborhoods, historic center, main harbor, Adolfo Lisboa market, modern port of Manaus etc).

In flood season we will have the opportunity to enjoy the little paths among flooded forest, a biome that which presents itself so differently.

Depending on the time, weather conditions and regime of the water level we can also enjoy a stop over in one of our many beaches on this amazing day that will never be forgotten and also make sure to share to all people as it has with our customers who enjoy this Ecological Amazon Adventure.
